	Dental Coverage	82.3%
	Vision Coverage	81.0%
	Disability Insurance	77.6%
	Flex Spending Account	60.3%
	Wellness Program	53.2%

A Laborshed area is defined by its commuting pattern and illustrates which communities contribute to an employment center's workforce and at what level. To determine the boundaries of a Laborshed area, local employers supply the residential ZIP codes of each of their employees. The data in this publication reflects characteristics specific to the workforce in the Clarinda Laborshed area.

The employed are currently commuting an average of—

14

miles one-way for an employment opportunity

&

17
minutes

EDUCATION OF AVAILABLE LABOR BY INDUSTRY OF CURRENT OR FORMER EMPLOYMENT

Data on this page is specific to only those survey respondents that reported they are likely to change or accept employment.

Industry	Education Beyond HS	Some Education Beyond HS, No	Trade Certification/Vocational Training	Associate Degree	Bachelor's Degree or Above
Agriculture, Forestry, & Mining	**	**	**	**	**
Construction	60.0%	30.0%	10.0%	10.0%	10.0%
Education	94.7%	5.3%	10.5%	0.0%	78.9%
Entertainment & Recreation	**	**	**	**	**
Finance, Insurance, & Real Estate	**	**	**	**	**
Government & Public Administration	85.7%	14.3%	7.1%	28.6%	35.7%
Healthcare & Social Services	80.0%	20.0%	0.0%	20.0%	40.0%
Manufacturing	81.8%	27.3%	9.1%	13.6%	31.8%
Personal Services	**	**	**	**	**
Professional Services	100%	28.6%	0.0%	42.9%	28.6%
Transportation, Communication, & Utilities	80.0%	20.0%	20.0%	40.0%	0.0%
Wholesale & Retail Trade	59.1%	31.8%	0.0%	0.0%	27.3%

Top percentages among industries per education level are highlighted in the table. **Insufficient survey data/refused

WAGES OF AVAILABLE LABOR BY INDUSTRY OF CURRENT OR FORMER EMPLOYMENT

**Insufficient survey data/refused. A lack of data for a particular industry is not necessarily indicative that there were no (or few) individuals surveyed within that industry. Rather, it may be that there simply were no respondents within that industry that also reported that they are likely to change or accept employment.

Note: A wide variety of occupations are included within these industry categories. Industry classification is based upon the respondent's reported current or former employer. Two respondents that work for a manufacturer will be classified within the manufacturing industry even if, for example, one respondent is a custodian and the other is an accountant.

UNDEREMPLOYMENT

The underemployed are working fewer than 35 hours per week but desire more hours (**inadequate hours**); in positions that do not meet their skill or education level, or have worked for higher wages at previous employment (**mismatch of skills**); or are earning wages equal to or less than the national poverty level and work 35 or more hours per week (**low income**).

	Percent Surveyed	Estimated Total		Percent Surveyed	Estimated Total
Inadequate Hours	2.2%	222	Mismatch of Skills	8.6%	868
Low Income	0.5%	50	Σ †Total	10.1%	1,020

†Individuals may be underemployed for more than one reason but are counted only once for total estimated underemployment.

Note: To be counted as underemployed in any category an individual must be currently employed and likely to change their current employment situation.
