Newton LABORSHED ANALYSIS

A Laborshed area is defined by its commuting pattern and illustrates which communities contribute to an employment center's workforce and at what level. To determine the boundaries of a Laborshed area, local employers supply the residential ZIP codes of each of their employees. The data in this publication reflects characteristics specific to the workforce in the Newton Laborshed area.

EMPLOYMENT STATUS (ESTIMATED TOTAL)*

**Employment status is self-identified by the survey respondent. The unemployment percentage above does not reflect the unemployment rate published by the U.S. Bureau of Labor Statistics, which applies a stricter definition.*

NEWS
**Insufficient survey data to report*

- Commute:
  - Willing to commute an average of **28** miles/**35** minutes (one-way) to work

The Laborshed survey collects information regarding the **out commute** for an employment center.

The **out commute** for Newton is estimated at 34.5 percent—approximately 3,303 people living in Newton work in other communities.

Most of those who are out commuting are working in Des Moines, Pella, and Ankeny, IA.

Over one-fourth (28.2%) of out commuters are likely to change employment (approximately 931 people).

61.1% earn an hourly wage—median wage is **$30.25/hour**
36.1% earn an annual salary—median salary is **$84,000/year.**

3,303 people live in Newton and work elsewhere

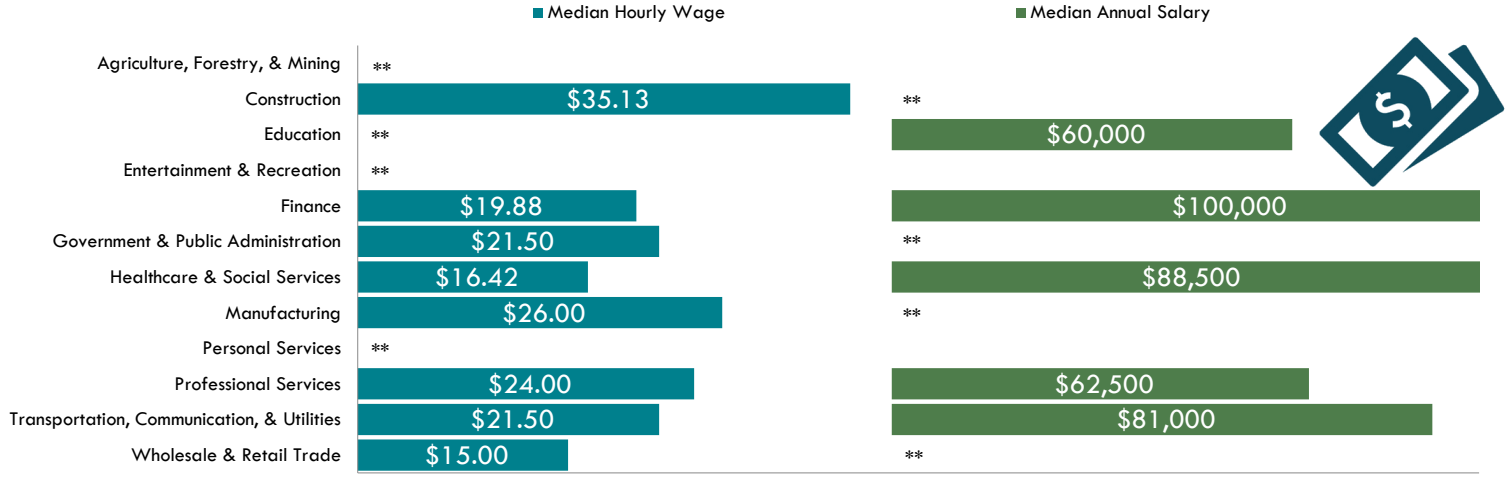

EDUCATION OF AVAILABLE LABOR BY INDUSTRY OF CURRENT OR FORMER EMPLOYMENT

Data on this page is specific to only those survey respondents that reported they are likely to change or accept employment.

Industry	Education Beyond HS	Some Education Beyond HS, No Degree Obtained	Trade Certification/ Vocational Training	Associate Degree	Bachelor's Degree or Above
Agriculture, Forestry, & Mining	**	**	**	**	**
Construction	77.7%	11.1%	44.4%	11.1%	11.1%
Education	100%	14.3%	0.0%	0.0%	85.7%
Entertainment & Recreation	**	**	**	**	**
Finance, Insurance, & Real Estate	63.7%	9.1%	0.0%	9.1%	45.5%
Government & Public Administration	99.9%	22.2%	11.1%	22.2%	44.4%

Professional Services	71.4%	21.4%	0.0%	14.3%	35.7%
Transportation, Communication, & Utilities	75.0%	25.0%	12.5%	12.5%	25.0%
Wholesale & Retail Trade	51.7%	25.8%	6.5%	6.5%	12.9%

Top percentages among industries per education level are highlighted in the table. ***Insufficient survey data/refused*

WAGES OF AVAILABLE LABOR BY INDUSTRY OF CURRENT OR FORMER EMPLOYMENT

***Insufficient survey data/refused. A lack of data for a particular industry is not necessarily indicative that there were no (or few) individuals surveyed within that industry. Rather, it may be that there simply were no respondents within that industry that also reported that they are likely to change or accept employment.*

Note: A wide variety of occupations are included within these industry categories. Industry classification is based upon the respondent's reported current or former employer. Two respondents that work for a manufacturer will be classified within the manufacturing industry even if, for example, one respondent is a custodian and the other is an accountant.

UNDEREMPLOYMENT

The underemployed are working fewer than 35 hours per week but desire more hours (**inadequate hours**); in positions that do not meet their skill or education level, or have worked for higher wages at previous employment (**mismatch of skills**); or are earning wages equal to or less than the national poverty level and work 35 or more hours per week (**low income**).

	Percent Surveyed	Estimated Total
Inadequate Hours	3.2%	1,578
Low Income	0.5%	247

	Percent Surveyed	Estimated Total
Mismatch of Skills	8.9%	4,388
†Total	10.9%	5,375

†Individuals may be underemployed for more than one reason but are counted only once for total estimated underemployment.
Note: To be counted as underemployed in any category an individual must be currently employed and likely to change their current employment situation.
