	Flex Spending Account 61.1%
	Prescription Drug Coverage 52.7%

A Laborshed area is defined by its commuting pattern and illustrates which communities contribute to an employment center's workforce and at what level. To determine the boundaries of a Laborshed area, local employers supply the residential ZIP codes of each of their employees. The data in this publication reflects characteristics specific to the workforce in the Pocahontas Laborshed area.

The employed are currently commuting an average of—

14 miles one-way for an employment opportunity

17 minutes

EDUCATION OF AVAILABLE LABOR BY INDUSTRY OF CURRENT OR FORMER EMPLOYMENT

Data on this page is specific to only those survey respondents that reported they are likely to change or accept employment.

Industry	Education Beyond HS	Some Education Beyond HS, No Degree Obtained	Trade Certification/Vocational Training	Associate Degree	Bachelor's Degree or Above
Agriculture, Forestry, & Mining	**	**	**	**	**
Construction	99.9%	33.3%	33.3%	0.0%	33.3%
Education	93.9%	12.5%	6.3%	31.3%	43.8%
Entertainment & Recreation	**	**	**	**	**
Finance, Insurance, & Real Estate	**	**	**	**	**
Government & Public Administration	91.7%	25.0%	33.3%	16.7%	16.7%
Healthcare & Social Services	85.0%	10.0%	10.0%	20.0%	45.0%
Manufacturing	80.0%	30.0%	5.0%	30.0%	15.0%
Personal Services	**	**	**	**	**
Professional Services	87.5%	50.0%	0.0%	12.5%	25.0%
Transportation, Communication, & Utilities	**	**	**	**	**
Wholesale & Retail Trade	65.0%	25.0%	15.0%	10.0%	15.0%

Top percentages among industries per education level are highlighted in the table. **Insufficient survey data/refused

WAGES OF AVAILABLE LABOR BY INDUSTRY OF CURRENT OR FORMER EMPLOYMENT

**Insufficient survey data/refused. A lack of data for a particular industry is not necessarily indicative that there were no (or few) individuals surveyed within that industry. Rather, it may be that there simply were no respondents within that industry that also reported that they are likely to change or accept employment.

Note: A wide variety of occupations are included within these industry categories. Industry classification is based upon the respondent's reported current or former employer. Two respondents that work for a manufacturer will be classified within the manufacturing industry even if, for example, one respondent is a custodian and the other is an accountant.

UNDEREMPLOYMENT

The underemployed are working fewer than 35 hours per week but desire more hours (**inadequate hours**); in positions that do not meet their skill or education level, or have worked for higher wages at previous employment (**mismatch of skills**); or are earning wages equal to or less than the national poverty level and work 35 or more hours per week (**low income**).

	Percent Surveyed	Estimated Total		Percent Surveyed	Estimated Total
Inadequate Hours	0.5%	22	Mismatch of Skills	7.7%	334
Low Income	0.0%	0	Σ †Total	8.1%	351

†Individuals may be underemployed for more than one reason but are counted only once for total estimated underemployment.

Note: To be counted as underemployed in any category an individual must be currently employed and likely to change their current employment situation.
