Total Survey Response Rate: 9%

**SUMMARY**

IVRS uses value chain analysis of processes completed within IVRS to assist in identifying where improvements are needed/to identify failure points. The customer satisfaction process was one way to begin and we agreed to use the new Quality Indicators for Customer Focus (QICF) as a pilot of an instrument that may be able to identify failure points/areas for improvement. The survey uses Skip Logic that creates a custom path through the survey that varies based on the respondent's answers. If a job candidate, answers question 2 as "not satisfied" then they asked to answer questions 2a, 2b, 2c, but if the answer is "satisfied", they go from question 2 to 3.

## **SURVEY QUESTION RESPONSES**

### **1. I am satisfied with the way my counselor related to me?**

TOTAL RESPONDENTS TO THIS QUESTION:

SUCCESSFULLY EMPLOYED: 95% satisfied, 5% not satisfied.
