Work-Based Learning is for Every Student in Iowa

What is Work-Based Learning?

In-depth Work-Based Learning (WBL) includes different opportunities for students and employers such as Registered Apprenticeships, Quality Pre-Apprenticeships, Internships, Authentic Project-Based Learning with Employers, Simulated Work Experiences aligned with Industry Credentials and Student Learner Programs.

These experiences provide students with practical skills and real-world knowledge that are invaluable as they transition from education to the workforce.

Why Work-Based Learning?

Students have the opportunity to learn new skills that can help them start their careers, connect with possible employers, and figure out what kind of work they prefer.

Employers can work with schools to build up a group of talented students, offer training in important skills to potential employees, and assess students to see if they are a good fit for the job.

How to Start or Expand Work-Based Learning?

Employers + Educators

Please contact our Iowa Workforce Development Work-Based Learning Team to brainstorm ideas, facilitate meetings with potential partners, design work-based learning programs and learn about financial resources to support work-based learning.
