Site Categories

Sites are defined as class locations. When data is entered into TE®, each specific location should be given a unique site ID (with the first two digits always being the site definition 01-14 and the remaining digits identifying the specific location) and then a detailed description should be entered in the site description field (these fields can be accessed on TE® by going to file/new/site).

It needs to be emphasized that specific location refers to where the class is held (i.e. Polk County Jail) and not the site definitions (i.e. Correctional Educational Agencies). For example, the site location “Polk County Jail” could be entered as the Site ID 0201 where the first two digits represent the site description, “Correctional Education Agencies” and the remaining digits are created/entered by the agency to identify the specific location, “Polk County Jail”, then in the site description field, “Polk County Jail” is entered.
